

## Figma Design

Home Page:

The image shows a Figma wireframe of a web application interface. At the top left is a user icon. To its right is the text "AI SafeNet". Further to the right is a "Login | Register" link. Below this header is a large dark banner. On the left side of the banner, the text "Protect Yourself from Cyber Threats Using AI" is displayed. In the center of the banner is a hand holding a blue shield with a white padlock, set against a background of a network of nodes and connections. Below the banner are three rounded rectangular boxes labeled "Scan Safely", "Learn more", and "Features". The "Features" box contains three sub-boxes: "AI Phishing Detection" (with a magnifying glass icon), "URL & File Scanning" (with a document icon), and "Simple & Secure" (with a shield and checkmark icon). Below these features is a section titled "How It Works" with three steps: "Upload / Paste" (with an upward arrow icon), "AI Analysis" (with a magnifying glass icon), and "Get Results" (with a document icon). At the bottom of the page is a dark footer bar containing links for "Privacy | Help | About" on the left and "copyright © 2025" on the right.

## Dashboard Page:

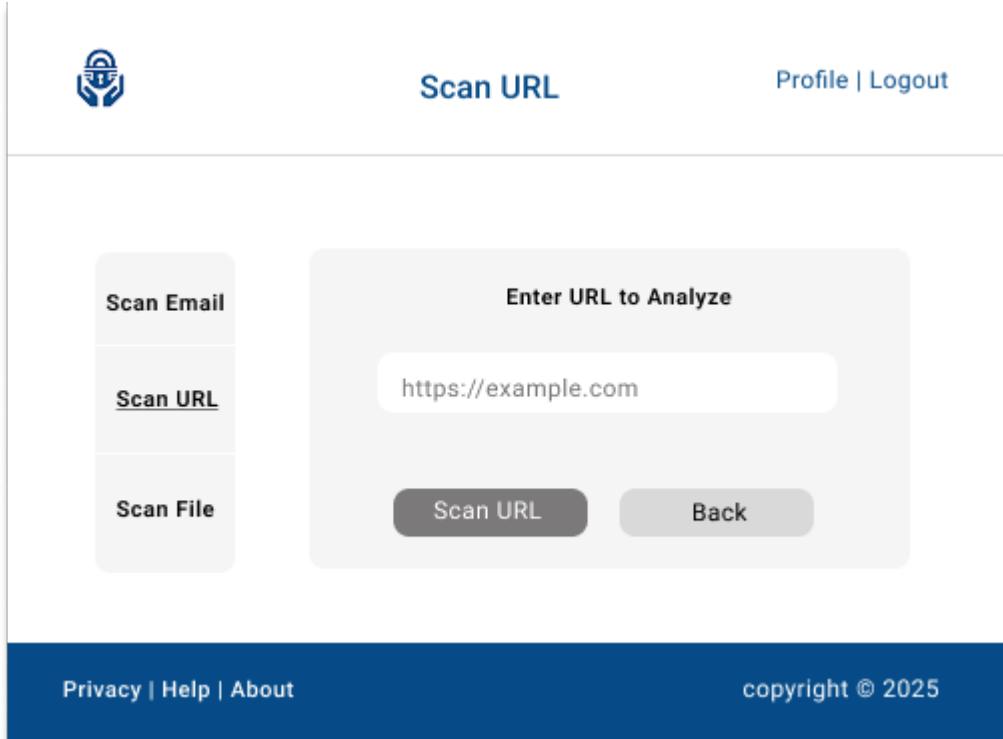

The screenshot shows the AI SafeNet Dashboard. At the top center is the title "AI SafeNet Dashboard". To the left is a blue circular icon containing a white stylized "A" and "S". To the right is a link "Profile | Logout". On the left side, there is a vertical menu with three items: "Scan Email", "Scan URL", and "Scan File", each with a small icon above it. In the center, there is a large rounded rectangle containing the heading "Recent Scan Results" and three lines of text: "Result #1 – Status – Date", "Result #2 – Status – Date", and "Result #2 – Status – Date". At the bottom of the page is a dark blue footer bar with the links "Privacy | Help | About" on the left and "copyright © 2025" on the right.

## Email Scanning Page:

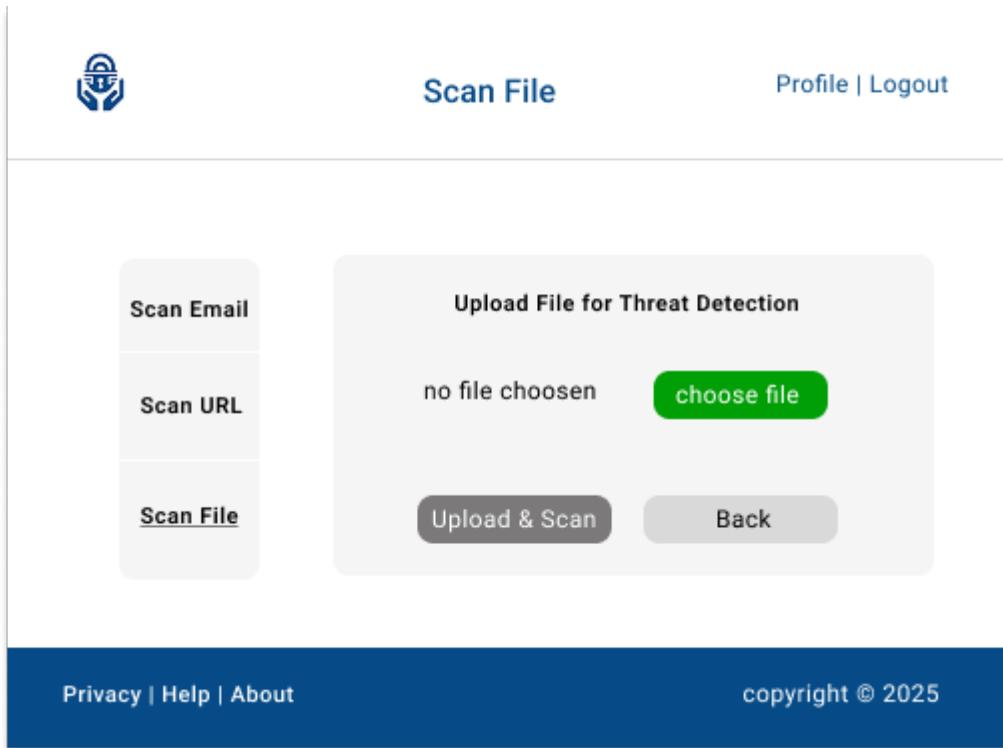

The screenshot shows the Email Scan page. At the top center is the title "Email Scan". To the left is a blue circular icon containing a white stylized "A" and "S". To the right is a link "Profile | Logout". On the left side, there is a vertical menu with three items: "Scan Email", "Scan URL", and "Scan File", each with a small icon above it. In the center, there is a large rounded rectangle containing the heading "Paste Email Content Below" and a text input field with the placeholder "Email Content Here". Below the input field are two buttons: "Scan Now" and "Back". At the bottom of the page is a dark blue footer bar with the links "Privacy | Help | About" on the left and "copyright © 2025" on the right.

## Scan Url Page:

The screenshot shows a web application interface for scanning URLs. At the top, there is a logo of a shield with a keyhole, followed by the text "Scan URL" and "Profile | Logout". On the left, a sidebar contains three buttons: "Scan Email", "Scan URL", and "Scan File". The main content area has a title "Enter URL to Analyze" and a text input field containing "https://example.com". Below the input field are two buttons: "Scan URL" (in a dark grey box) and "Back". At the bottom of the page, a dark blue footer bar contains links "Privacy | Help | About" on the left and "copyright © 2025" on the right.

## Scan File Page:

The screenshot shows a web application interface for scanning files. At the top, there is a logo of a shield with a keyhole, followed by the text "Scan File" and "Profile | Logout". On the left, a sidebar contains three buttons: "Scan Email", "Scan URL", and "Scan File". The main content area has a title "Upload File for Threat Detection" and a file input field with the placeholder "no file chosen". Next to the input field is a green button labeled "choose file". Below the input field are two buttons: "Upload & Scan" (in a dark grey box) and "Back". At the bottom of the page, a dark blue footer bar contains links "Privacy | Help | About" on the left and "copyright © 2025" on the right.

## Scan Result Page:

### Scan Result

[Profile | Logout](#)

**Threat Level Indicator**

High      **Medium**      Low

**Summary**

File/URL/Email: [sample\\_input.txt](#)

Risk Level: Medium

AI Notes: Suspicious pattern detected

**Recommendations**

1. Do not open attachments from unknown sources.
2. Verify sender identity.
3. Use updated antivirus tools.
